

DEFINITIONS and LICENSE ENTITLEMENT INFORMATION

EBICS Gateway

Definitions

- **"EBICS Customer"** means an EBICS partner of the EBICS server stack. It is identified by a customer-ID and is entitled to exchange with the EBICS Server stack. If EBICS gateway is only used for the bank-to-corporate use case, this customer identifies a corporate. If EBICS Gateway is also used for the bank-to-bank use cases, it can carry also the identity of a remote bank / financial institution when this bank acts as a file sender vis-à-vis the EBICS Server stack of EBICS Gateway.
- **"EBICS Subscription"** means the subscription of a user of the bank EBICS Gateway works on behalf of, to the EBICS server of a remote bank. This Subscription enables EBICS Gateway to send a file to a remote bank, in the context of a Bank-to-bank use case. In this case, EBICS Gateway acts as an EBICS Client.

DEFINITIONS et INFORMATION sur les DROITS de la LICENCE

EBICS Gateway

Définitions

- **"EBICS Customer"** (client EBICS) désigne un partenaire EBICS du mode EBICS Server d'EBICS Gateway. Un client EBICS est identifié par un Customer ID (identifiant client) et peut échanger avec le mode EBICS Server d'EBICS Gateway.
- **"EBICS Subscription"** (abonnement EBICS) est identifié par un user ID (identifiant utilisateur) ; c'est le contrat technique qui définit les paramètres de sécurité (certificats, clefs, ...) de l'échange entre un utilisateur EBICS et un serveur EBICS.
